

## **ANNOUNCING: NEW ARCTIC CAT RECTIFIER/REGULATORS FROM RICK'S MOTORSPORT ELECTRICS!**

Rick's Motorsport Electrics has a new series of rectifier/regulators for the Arctic Cat ATVs. There are currently four new part numbers, with more to come. The pieces are all heavy duty replacements with direct replacement plug ends for an easy install process. They will fit 99-05 250s, 99-05 300s, 1999 and 02-07 500s.

“We have seen a need in the industry for a heavy duty Arctic Cat rectifier/regulator, so we've come up with a solution, says company president Rick Shaw. “We've made the pieces user-friendly and affordable.”

The part numbers 10-662, 10-663, 10-664, and 10-665 range in price from \$105 - \$120 retail and are all made in the USA. They are available immediately from Rick's Motorsport Electrics and most of their distributors. If you do not see your application listed, please call the shop. They may have a piece that will work, however you will need to describe your plug ends to insure it will be a bolt-on piece.

For more information on these rec/reg's and other products from Rick's Motorsport, please visit their website at [www.ricksmotorsportelectrics.com](http://www.ricksmotorsportelectrics.com) or call them at 1-800-521-0277. The 2007 catalog will be available soon, with over 50 new parts! In addition to street bikes and off road/ATVs, Rick's also offers stators and starter motors for snowmobiles and watercraft.

**Rick's Motorsport will continue to deliver  
The Right Product, The Right Fit, The  
Right Price.**
